WHAT PROFESSIONAL IS

Professional is SuggiCare's advanced volunteer management tier for organisations that have outgrown spreadsheets and are ready for **infrastructure that matches the scale of their mission**. It includes everything in Amplify, plus advanced analytics, compliance automation, multi-site management, and ESG impact reporting.

Everything in Amplify, plus: Professional builds on the Amplify foundation — volunteer onboarding, shift scheduling, hours tracking, automated notifications, marketplace listing, compliance tracking, and email support — then goes significantly further.

WHY PROFESSIONAL

Built for the Organisations Doing the Most.

When your volunteer programme grows, your infrastructure should grow with it.

Care organisations are running rostering on spreadsheets, chasing compliance manually, and losing staff to admin burnout. **Professional is the infrastructure answer to that problem.** People caring for people deserve a system that supports them at scale.
